

World-class cancer care here for you

Cambridge

GenesisCare

From symptoms to survivorship
– and everything in-between
– our purpose-built centre
provides world-class cancer
care to people in East Anglia
and the surrounding areas.

Welcome to GenesisCare in Cambridge

Our centre here in Cambridge is one of 14 across the UK providing world-class cancer diagnostics and treatment. Working closely with leading health professionals and investing in cutting-edge treatments, we offer some of the UK's most advanced cancer therapies.

This means that you don't have to travel far to find the latest techniques that are proven to be safe and effective provided as standard, with treatment starting within days or even hours of diagnosis.

Our dedicated and highly experienced team is proud that so many patients rate our care as excellent as we help them through their cancer journey. As a patient, you can expect to receive the very best personalised care and a treatment plan that also embraces life-changing approaches such as wellbeing therapies.

We're here to change the way people experience cancer treatment and care, understanding what it takes to achieve the best possible life outcomes and going a little further to provide it.

The Cambridge team

**We're here to change
the way people
experience cancer
treatment and care**

GenesisCare
Cambridge
Centre for diagnostics,
oncology and wellbeing

Our purpose-built GenesisCare centre in Cambridge delivers world-class diagnostic and cancer care

Cancer treatment and care is constantly evolving and, as a global organisation, GenesisCare stays abreast of the latest evidence-based treatments from around the world, investing in those that will benefit our patients here in the UK.

The main approaches to cancer care are early detection and diagnosis so cancers can be more easily treated, surgery to remove tumours, radiotherapy to target and destroy cancer cells and chemotherapy – a wide range of drug therapies that destroy specific cancer cells.

Our Cambridge outpatient (day) centre was recently purpose-built to provide many of these treatments and we use some of the most advanced techniques to treat all types of cancer.*

These include advanced diagnostic imaging, precision radiotherapy techniques that are proven safe and effective for difficult-to-reach tumours while limiting dose to healthy tissue and high-dose radiotherapy for shorter treatment duration.

*Surgery is undertaken at partner hospitals

**"Thank you to
the team at
GenesisCare...
everyone showed
great kindness"**

Patient, Cambridge

Our patients are referred to us from across the East Anglia area as well as further afield and we have a reputation for delivering excellent patient care. Everyone is offered access to wellbeing therapies through our unique partnership with the Penny Brohn UK cancer charity and exercise medicine at our on-site gym.

Patients can also be referred to specialist services available at other GenesisCare centres within our network. These include new treatments such as MRIdian MRI-guided radiotherapy for difficult-to-treat tumours, stereotactic radiosurgery for small brain tumours and Theranostics – an innovative therapy for certain cancers when other treatment options aren't suitable or effective.

Your oncologist will work with experts throughout our network to ensure that you have the most appropriate treatment for you.

**It matters to us that so many
of our patients can take away
some positive experience
from their cancer journey**

What we offer at Cambridge

If you'd like more information about any of our services, please go to [genescare.com](https://www.genescare.com) or ask for one of our patient brochures

When required, we'll help our patients with transport depending on treatment and locations. Please enquire for more details.

More than treating your cancer

We know that for many people cancer is a life-changing experience and our goal is to help you meet the emotional and psychological challenges in the most positive way possible. That's why we've partnered with Penny Brohn UK to provide a ground-breaking approach to complementary and wellbeing therapies alongside conventional medicine. Through a programme carefully tailored to your needs, we can help you to deal with the side effects of treatment, reduce stress and let you take back control.

We also provide exercise medicine, which is effective in improving treatment tolerance, building muscle mass and reducing cancer-related fatigue, among many other health-related benefits. You'll be prescribed an exercise programme tailored to your cancer type, treatment and overall health – as well as your own personal goals. You'll be offered these services at no extra cost to you or your insurance provider.

We are proud to have the Macmillan Quality Environment Mark demonstrating that our centre is welcoming and accessible to all and that we are respectful and supportive, listening to you and giving you control over how you use our services.

When required, we'll help our patients with transport depending on treatment and locations and there's ample parking if you drive. A friend or family member is welcome to come with you to your appointments and a variety of refreshments are available.

Here for you

These are some of the different experts and support staff who make up our teams.

Your care will be led by a consultant oncologist who will work alongside our experienced team based here at our centre and partner hospitals. Together they will manage your personalised treatment and care plan.

We also run patient focus groups for prostate and breast cancer patients and run pre-chemotherapy education groups.

Consultant oncologist

All of our consultant oncologists also work in large regional NHS hospitals. This means they have a very wide knowledge and experience and are familiar with the Cambridgeshire healthcare networks. They use various methods to treat cancer without using surgery, including chemotherapy and radiotherapy.

Diagnostic radiographer

Uses imaging techniques, such as MRI, PET/CT and PET, to capture and interpret scans and reports their findings to your oncologist.

Therapy radiographer

Involved in radiotherapy planning scans, treatment planning and delivering radiotherapy. You'll see them at every radiotherapy session.

Dosimetrist

Helps your oncologist plan your radiotherapy treatment to destroy cancer cells while limiting damage to healthy tissues.

Physicist

Measures the dose of radiation you receive during radiotherapy to ensure it is safe and as prescribed by your oncologist.

Pharmacist

Dispenses medicines as prescribed by your oncologist.

Chemotherapy and outpatient nurse

Administers and monitors chemotherapy, helps evaluate the effectiveness of treatment, and advises on side effects and aftercare, as well as runs clinics and assists with and performs minor procedures.

Clinical nurse specialist

Has additional training in a particular cancer, to help treat and manage cancer-specific symptoms or treatment side effects. We have a clinical nurse specialist for breast cancer.

Penny Bohn wellbeing consultant

Provides complementary and wellbeing therapies that are proven to ease cancer-related concerns.

Exercise medicine specialist

Provides you with a complimentary exercise medicine prescription that's tailored to your specific needs using evidence-based approaches to improve treatment outcomes and side effects.

Patient administration officer

Responsible for booking your treatments, dealing with funding and insurance and arranging transport.

Our key specialists also have strong links with local cancer support networks and survivorship programmes

We're easy to get to

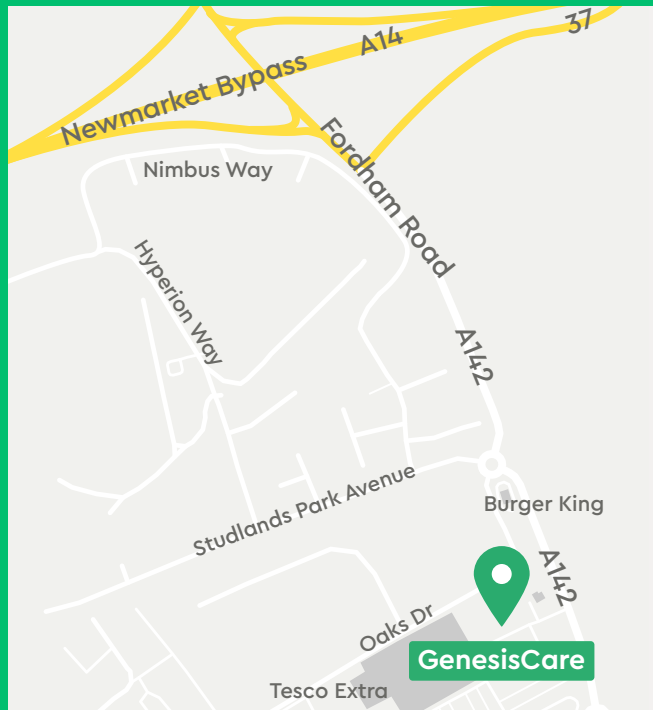

GenesisCare is located just off the Newmarket bypass. Use junction 37 off the A14. There's plenty of free on-site parking – but if you have trouble getting to us, we can help our patients with transport depending on treatment and locations. Please enquire for more details.

Opening hours

Mon to Fri
8am to 5pm
