

World-class cancer care here for you

Milton Keynes

We are the UK's leading private cancer care provider, with our specialist centre in Milton Keynes offering world-class treatments to people across Buckinghamshire and the surrounding region.

Welcome to GenesisCare in Milton Keynes

Our centre is one of 14 across the UK providing world-class cancer diagnostics and treatment. In partnership with leading health professionals and by investing in cutting-edge treatments, we offer some of the UK's most advanced cancer therapies here in Milton Keynes.

This means that you don't have to travel far to find the latest techniques that are proven to be safe and effective provided as standard, with treatment starting within days or even hours of diagnosis.

As a patient, you can expect to receive the very best personalised care and a treatment plan that also embraces life-changing approaches such as wellbeing therapies. We have a dedicated and highly experienced team and we're proud to help each and every patient through their treatment – and that so many of them have rated our care as excellent.

We're here to change the way people experience cancer treatment and care, understanding what it takes to achieve the best possible life outcomes and going a little further to provide it.

The Milton Keynes team

the way people
experience cancer
treatment and care**

GenesisCare
Milton Keynes
Centre for diagnostics,
oncology and wellbeing

Our GenesisCare centre in Milton Keynes is purpose-built for world-class cancer care

Cancer treatment and care is constantly evolving and, as a global organisation, GenesisCare stays abreast of the latest evidence-based treatments from around the world, investing in those that will benefit our patients here in the UK.

The main approaches to cancer care are early detection and diagnosis so cancers can be more easily treated, surgery to remove tumours, radiotherapy to target and destroy cancer cells and chemotherapy – a wide range of drug therapies that destroy specific cancer cells.

Our Milton Keynes outpatient (day) centre was recently purpose-built to provide many of these treatments and we use some of the most advanced techniques to diagnose and treat all types of cancer.* These include advanced imaging techniques, specialist clinics for breast and urology diagnostics and precision radiotherapy treatments that are proven safe and effective for difficult-to-reach tumours while limiting dose to healthy tissue.

*Surgery is undertaken at partner hospitals

"My cancer journey has been made so much easier by the care, love and support received at GenesisCare"

Patient, Milton Keynes

Our patients are referred to us from across the Buckinghamshire area as well as further afield and we have a reputation for delivering excellent care.

Everyone is offered access to wellbeing therapies through our unique partnership with the Penny Brohn UK cancer charity and exercise medicine at our on-site gym.

Patients can also be referred to specialist services available at other GenesisCare centres within our network. These include new treatments such as MRIdian MRI-guided radiotherapy for difficult-to-treat tumours, stereotactic radiosurgery for small brain tumours and Theranostics – an innovative therapy for certain cancers when other treatment options aren't suitable or effective.

Your oncologist will work with experts throughout our network to ensure that you have the most appropriate treatment for you.

It matters to us that so many of our patients can take away some positive experience from their cancer journey

What we offer at Milton Keynes

Detection and diagnosis

- MRI, CT, mammography and ultrasound imaging
- One Stop Breast Clinic
- UrologyHub
- Rapid Access Haematology Clinic

When required, we'll help our patients with transport depending on treatment and locations. Please enquire for more details.

More than treating your cancer

We know that for many people cancer is a life-changing experience and our goal is to help you meet the emotional and psychological challenges in the most positive way possible. That's why we've partnered with Penny Brohn UK to provide a ground-breaking approach to complementary and wellbeing therapies alongside conventional medicine. Through a programme carefully tailored to your needs, we can help you to deal with the side effects of treatment, reduce stress and let you take back control.

We also provide exercise medicine, which is effective in improving treatment tolerance, building muscle mass and reducing cancer-related fatigue, among many other health-related benefits. You'll be prescribed an exercise programme tailored to your cancer type, treatment and overall health – as well as your own personal goals. These complementary services will be offered at no extra cost to you or your insurance provider.

We are proud to have the Macmillan Quality Environment Mark demonstrating that our centre is welcoming and accessible to all and that we are respectful and supportive, listening to you and giving you control over how you use our services. We also run the Macmillan HOPE Course, an interactive, group-based self management course to help patients improve their physical and emotional wellbeing.

We can design and plan treatments around your work and life commitments. When required, we'll help our patients with transport depending on treatment and locations and there's ample parking if you drive. A friend or family member is welcome to come with you to your appointments and a variety of refreshments are available. We have two quiet rooms and a garden for anyone to use if they need somewhere to relax in peace.

*Net Promoter Score, October to December 2019 average

Here for you

These are some of the different experts and support staff who make up our teams.

Your care will be led by a consultant oncologist who will work alongside our experienced team based here at our centre and partner hospitals. Together they will manage your personalised treatment and care plan.

We also run patient support clinics for breast, urology and haematology patients.

Consultant oncologist

Many of our consultant oncologists also work in large regional NHS hospitals. This means they have a very wide knowledge and experience and are familiar with the Milton Keynes healthcare networks. They use various methods to treat cancer including chemotherapy and radiotherapy.

Diagnostic radiographer

Uses imaging techniques, such as mammography, MRI, PET/CT and PET, to capture scans for a consultant radiologist to interpret.

Therapy radiographer

Involved in radiotherapy planning scans, treatment planning and delivering radiotherapy. You'll see them at every radiotherapy session.

Dosimetrist

Helps your oncologist plan your radiotherapy treatment to destroy cancer cells while limiting damage to healthy tissues.

Physicist

Measures the dose of radiation you receive during radiotherapy to ensure it is safe and as prescribed by your oncologist.

Chemotherapy nurse

Administers and monitors chemotherapy, helps evaluate the effectiveness of treatment, and advises on side effects and aftercare.

Clinical nurse specialist

Has additional training in a particular cancer, to help treat and manage cancer-specific symptoms or treatment side effects. We have a clinical nurse specialist for breast cancer and haematology.

Penny Brohn wellbeing consultant

Provides complementary wellbeing therapies that are proven to ease cancer-related concerns.

Exercise medicine specialist

Provides you with a complimentary exercise medicine prescription that's tailored to your specific needs using evidence-based approaches to improve treatment outcomes and side effects.

Pharmacist

Dispenses medicines as prescribed by your oncologist.

Patient administration officer

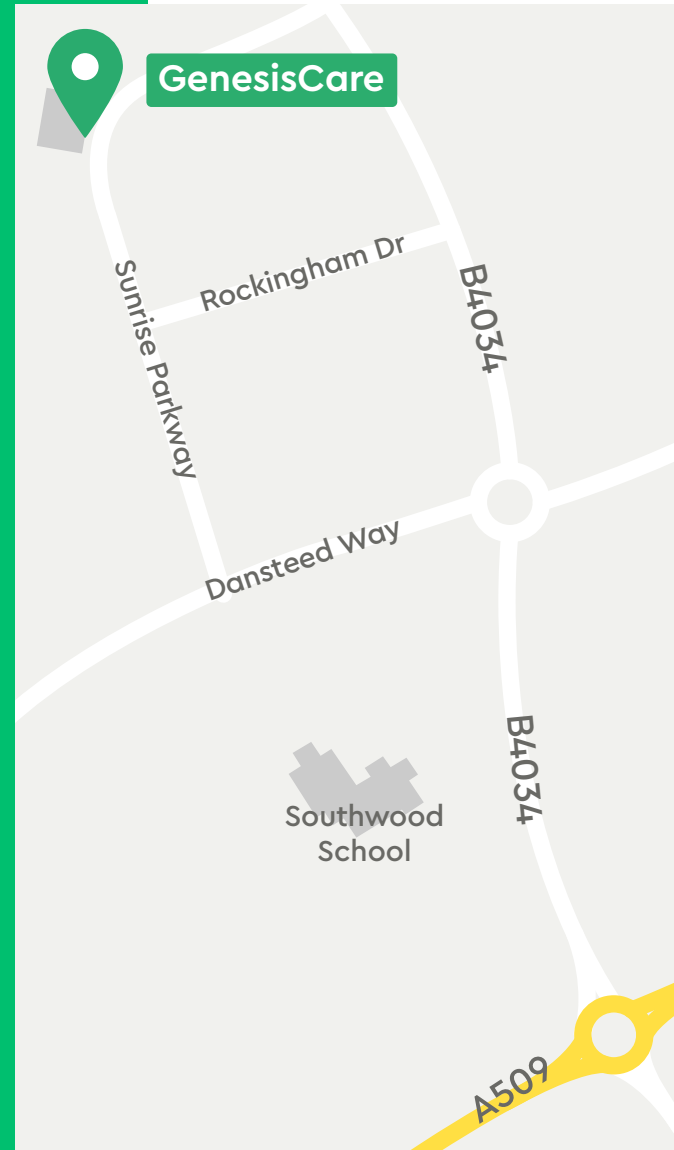

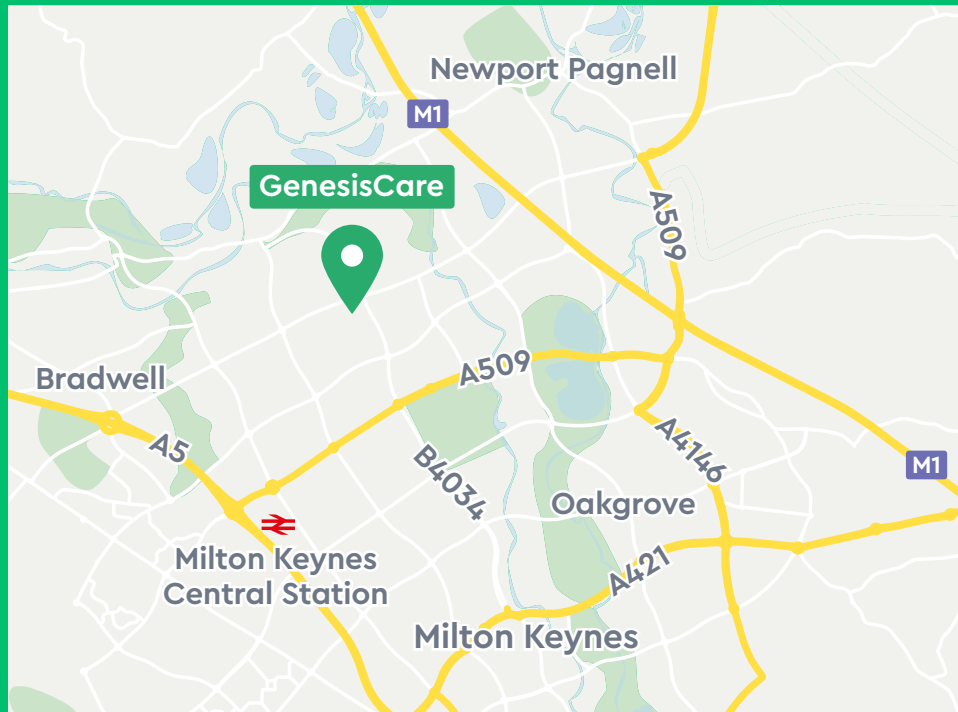

Responsible for booking your treatments, dealing with funding and insurance and arranging transport.

Our key specialists also have strong links with local cancer support networks and survivorship programmes

We're easy to get to

Exit the M1 at junction 14, taking the A509 for two miles towards Milton Keynes. At Belvedere Roundabout, take the 3rd exit onto B4034, and continue straight over the roundabout. Take the 2nd left onto Sunrise Parkway to find GenesisCare on the right, immediately after the road bends.

Alternatively, Milton Keynes Central station is a five minute taxi ride away.

Opening hours
